

PROFESSIONAL SUMMARY

Certified **Microsoft Fabric Analytics Engineer (DP-600)** with 2+ years of experience in end-to-end data architectures. Expert in **Medallion Architecture**, ETL automation, and **Power BI (Direct Lake)** optimization. Specialized in transforming complex datasets into actionable business insights and high-performance dashboards using the full **Microsoft Data Stack**.

PROFESSIONAL CERTIFICATIONS

- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)** [High Priority]
- Alteryx Designer Core** Data Analytics Specialist
- Oracle Cloud Infrastructure (OCI)** AI Foundations Associate
- GitHub Foundation** Professional Certificate

PROFESSIONAL EXPERIENCE

Independent Data Consultant | Freelance Jan 2026 — Mars 2026
Remote | End-to-End Data Projects

- AI Systems:** Developed an autonomous Resume Engineering agent using LLMs (GPT-4) and Python Flask.
- Workflow Automation:** Integrated Power Platform with Azure services to automate HR and Sales data validation.
- Optimization:** Provided data strategy consulting for small-to-medium enterprises, optimizing cloud costs by 15%.

MajestEYE | Junior Data Analyst Jan 2024 — Jan 2026
Tunisia | Data BI Solutions

- Microsoft Fabric Architecture:** Implementing Medallion layers (Bronze, Silver, Gold) to streamline data governance and reporting.
- Data Engineering:** Designed automated ETL pipelines using Python and Spark, reducing processing time by 30%.
- Predictive Analytics:** Developed and deployed demographic forecasting models with 88% accuracy using Scikit-learn.
- BI Delivery:** Built interactive executive dashboards in Power BI utilizing Direct Lake mode for real-time insights.

TECHNICAL PROJECTS

Global Sales Intelligence Hub Jan 2026 — Feb 2026

- Data Flow:** Built a **Medallion Architecture** in Fabric OneLake to centralize multi-source sales data.
- Optimization:** Implemented **Direct Lake** mode for Power BI, enabling real-time analytics on large-scale datasets.
- Tools:** Microsoft Fabric, Data Factory, Power BI.

HR Analytics & Workforce Governance Oct 2025 — Dec 2025

- Modeling:** Developed a **Fabric Data Warehouse** with Star Schema for automated attrition and payroll analysis.
- Automation:** Engineered T-SQL scripts for automated data validation and reporting efficiency (40% gain).
- Tools:** Fabric Warehouse, T-SQL, Data Factory.

TECHNICAL SKILLS

Core Platforms:	Microsoft Fabric (OneLake, Data Factory, Synapse), Power BI (Direct Lake), Azure.
Data Science:	TensorFlow, Scikit-learn, Pandas, NumPy, XGBoost, MLflow, LLMs (RAG).
Databases & ETL:	SQL (T-SQL, PostgreSQL), NoSQL (MongoDB), SSIS, Alteryx, Data Warehousing.
Programming:	Python (Expert), SQL, R, PySpark, FastAPI, React.js.

EDUCATION

M.Sc. in Data Mining & Visualization <i>University of Jendouba (Currently finalizing Thesis / Evening Classes - 100% Available for work)</i>	2024 — Present
B.Sc. in Business Intelligence <i>University of Jendouba, Tunisia GPA: 15.32/20 (Honors: Mention Bien)</i>	2021 — 2024

LANGUAGES

English:	Professional Working Proficiency
French:	Professional Working Proficiency
